## CONFERENCE

### THE HEALTH-RELATED PROJECTS FOR THE PROTECTION OF THE PEOPLE LIVING AROUND THE CHERNOBYL EXCLUSION AREA

Researches led by Pr Yuri Bandazhevski

European Parliament, Brussels, room ASP 1H1

Tuesday, June 27, 2017, 9: 00-11: 30

This conference will be an opportunity to learn about the results of a European Union project developed in Ukraine which began in 2013. This project entitled "HEALTH AND ENVIRONMENT PROGRAMS AROUND THE CHERNOBYL EXCLUSION AREA. DEVELOPMENT, TRAINING AND COORDINATION OF HEALTH PROJECTS FOR THE PROTECTION OF PERSONS RESIDING AROUND THE CHERNOBYL EXCLUSION AREA " aims to support the population of the Ivankiv District affected by the radioactive outfall of the accident at the Chernobyl nuclear power plant, to improve their general quality of life.

*I am delighted to organize this conference in the European Parliament to receive the results of three years of research on health and environment of the populations living around the Chernobyl exclusion zone. This European project is the result of unique collaborations between the European Parliament and the European Commission. It is important that European funds are not just limited to the material, but also focus on people, their health and their environment,* " Michèle Rivasi, Member of the European Parliament.

#### **PROGRAM**

##### **9:00 am: INTRODUCTION**

By **Michèle Rivasi**, Vice-Chair and **Philippe Lamberts**, Co-Chair of the Greens Group
